REPORT OF SUPERINTENDENT OF SCHOOL

To the School Board and Citizens of Sullivan:

I submit herewith my fifth annual report as superintendent of schools.

A good school gives not only mental training, physical development and righteous morals, but also good habits of study, work and living.

Indeed, we must continue to place strong emphasis on the old fashioned word "work."

To enable the pupils in our rural schools to read comprehensively, to spell correctly, to write legibly, and clearly and to talk intelligently is the paramount issue.

A full and satisfactory knowledge and command of English so as to be able to talk it and write it clearly and well should be the goal of the rural school.

If these fundamental subjects are thoroughly mastered, mental alertness in numbers and cultural growth in geography, history, civics, etc. will easily follow.

I believe your teachers have had these goals of attainment in mind during the past year. To attain these results, they have followed pedagogical methods. When questions of discipline have arisen, careful consideration has been given, prompt and decisive action taken by your teachers.

Indeed, we believe in a strict and impartial school government such as a wise, judicious and faithful parent would exercise in the family and which will unfold in every child the best qualities and stimulate in him the highest principles and purposes.

Schools are created for the pupil and their aim is to educate the young for fitness in life and its realities, and to do

this, thorough discipline must be maintained.

Promotions were based on results of following tests:

Ayre's scale in writing and spelling, and Stanford's Achievement test.

These were supplemented by tests given by the teachers, superintendent and by a generous consideration of the daily work of the individual pupil throughout the year.

On this basis, the following number of pupils were promoted to the next grade in the respective schools:

Grades,	I	II	III	IV	V	VI	VII	VIII
No. 1, East,	2	3	2		2	2		
No. 2, Center,	1	2		5	3	2	1	4
No. 3, Fifield,		1	1	1	2	1		3
Totals,	3	6	3	6	7	5	1	7

TEACHERS FOR YEAR 1926-1927

No. 1, East, Mrs. Freda W. Hastings.

No. 2, Center, E. Marteile Phillips.

No. 3, Fifield, Bruna A. Farinoli.

Statistics generally afford dry reading but they are often suggestive and illuminating if carefully studied. Consulting the table of statistics for the year 1926-1927, you will see that your schools maintained a very good record in average attendance but the tardy marks were excessive considering the number of pupils registered.

The average attendance exceeded the average attendance of the supervisory district and that of the state.

Yet there is a chance for improvement. Let us aim to make it this present year.

Too many absentees and too many cases of tardiness ought to compel every parent to ask himself, "am I responsible?"

Regularity and punctuality in attendance are business virtues and are essential to a good school.

At the East, Mrs. Hastings maintained her former reputa-

tion for excellent discipline and thorough work. She is continuing her work in this school during the present year.

At the Center, Miss Phillips completed a successful year, four pupils having completed the eighth grade, viz: Francis Cheney, Harry Corey, Lena LaBounty and Melvin Wright.

Miss Phillips having taught this school two years was transferred to the North End school in Surry. Miss Phyllis Specht, a graduate of Fitchburg Normal, succeeded her.

At the Fifield, Miss Farinoli, who completed a very successful year, having resigned to accept a position in Massachusetts. Miss Grayce Paulson, a graduate of Keene Normal was assigned to this school. Three pupils completed the eighth grade in this school, viz: Frank Wright, Harvey Swett and Richard Swett.

At the time of writing, all the schools are running smoothly, doing effective work, and give promise for a successful year.

REPORT OF MISS FRANCES EDGETT, R. N., HEALTH INSPECTOR

Number of pupils examined,	40
Number of malnutrition,	7
Number of defective vision,	14
Number of defective hearing,	1
Number of defective teeth,	24
Number of hypertrophied tonsils,	17

Number taken to tonsil and adenoid clinic,	1

Miss Edgett visited the parents of the children and reported all interested and co-operative in her work. In conclusion, I wish to acknowledg the cordial co-operation of teachers, the assistance and help of the school board and the support of parents and citizens.

Respectfully submitted,
FREDERICK T. JOHNSON,
Superintendent of Schools.
